

FLEXFORM

MADE IN ITALY

OUTDOOR
COLLECTION
2020

A wide-angle photograph of a rugged coastline. A steep, layered rock cliff dominates the left side of the frame, its brown and tan hues contrasting with the bright blue of the ocean. Waves are crashing against the base of the cliff and along the rocky beach in the foreground. The sky is a clear, pale blue.

Flexform Outdoor Collection

2020

Nella nuova collezione outdoor confluiscano una pluralità di stimoli e suggestioni che danno vita ad una serie di proposte pensate per arredare spazi esterni quali verande, terrazze e giardini all'insegna di un'ideale continuità di stile tra ambienti indoor e ambienti outdoor.

Gli arredi per esterni realizzati da Flexform rappresentano la sintesi di un design contemporaneo e tuttavia atemporale, di funzionalità e confort e sono fatti con materiali accuratamente selezionati per garantire durabilità e resistenza all'azione degli agenti atmosferici.

All kinds of inspirations and influences come together in the new outdoor collection. They sparked a series of new products designed to furnish outdoor spaces like porches, patios and gardens, creating a seamless flow of styles between indoor and outdoor settings, fostering an informal lifestyle where elegance and comfort are right at home.

The outdoor furnishings crafted by Flexform brilliantly express contemporary design that is nonetheless timeless, functional and comfortable, constructed from carefully selected materials to ensure durability and long lifetime as well as weather resistance.

Index

Atlante

Antonio Citterio

6

La famiglia Atlante comprende divani lineari, componibili e lettini, proposti in numerose tipologie e finiture che consentono di progettare spazi outdoor all'insegna di una grande libertà interpretativa.

Il divano Atlante è caratterizzato da un'estetica contemporanea; alla rigorosa struttura in metallo si contrappone la generosità dei cuscini imbottiti contraddistinti da un ricercato profilo in gros grain che ne sottolinea le forme morbide ed accoglienti.

La base del divano è realizzata in acciaio inox rivestita da cinghie elastiche idrorepellenti, mentre i piedi in alluminio pressofuso rivelano un segno gentile ed armonioso.

Il divano Atlante è ricco di dettagli di confezione che ne sottolineano l'elevato grado di personalizzazione: la base in metallo è verniciata a polvere epossidica in una serie di raffinati cromie, mentre le cinghie elastiche sono proposte nei colori bianco, sabbia, grigio ed antracite a realizzare un piacevole contrasto oppure un garbato effetto ton-sur-ton. Il sistema di sedute Atlante offre una grande libertà sul piano compositivo e consente di realizzare una varietà di configurazioni che rispondono alle esigenze più diverse. Particolarmenete dinamiche e funzionali possono risultare le composizioni nelle quali gli elementi di seduta vengono abbinati ad elementi che rivestono la funzione di pratiche superfici d'appoggio o di tavolini terminali integrati al divano, i cui piani possono essere realizzati in legno di iroko oppure in pietra naturale disponibile in una pluralità di finiture. È vivamente consigliato l'utilizzo delle apposite fodere impermeabili per mantenere i divani Atlante in buone condizioni e preservarne il più possibile lo stato originale.

Made up of stand-alone and sectional sofas as well as daybeds, the Atlante family is available in many types and finishes that invite great interpretive freedom in the design of outdoor spaces.

The Atlante sofa is in a contemporary style. The generous size of the upholstered cushions offsets the austerity of the metal structure, and the elegant grosgrain piping outlines its soft, welcoming shapes.

The stainless-steel base is upholstered in water-repellent elastic webbing, while the sofa's cast aluminum feet reveal a delicate, harmonious vibe.

The Atlante sofa is dense with details that underscore its amazing talent for personalization. The metal base comes in a series of sophisticated epoxy powder-coat shades, while the elastic webbing, available in white, sand, grey and anthracite color, can create elegant contrasts or subtle tone-on-tone pairings.

The Atlante seating system frees the imagination to come up with any number of arrangements that cater to the most diverse needs. By pairing the seat elements with the handy table tops and integrated end tables with shelves that can be made of iroko wood, or a number of types of natural stone, the sofa arrangements soar to new levels of dynamic, diverse expression. In order to keep the Atlante sofas in good condition and maintain them as close as possible to their original state, use of their respective waterproof covers is strongly recommended.

I divani Ansel sono connotati da un insolito connubio di materiali: sulla rigorosa base in acciaio inox si innesta la struttura di braccioli e schienali realizzati in doghe di iroko.

Il risultato è sorprendente e rivela un perfetto equilibrio tra la forza espressiva del legno e la leggerezza della base in acciaio inox verniciata a polvere epossidica in una gamma di colori raffinati e rivestita da cinghie elastiche idrorepellenti,

Il confort è assicurato dai morbidi cuscini di seduta, generosamente imbottiti e rifiniti da un elegante profilo in gros grain, che può essere realizzato ton-sur-ton oppure in contrasto.

L'appoggio allo schienale è affidato a cuscini a rullo sui quali vengono adagiati cuscini di differenti dimensioni, che oltre a migliorare la comodità del divano, offrono anche un piacevole effetto decorativo.

I divani Ansel sono proposti in due profondità – cm 84 e 124 – e nelle versioni a due e tre posti.

È vivamente consigliato l'utilizzo delle apposite fodere impermeabili per mantenere i divani Ansel in buone condizioni e preservarne il più possibile lo stato originale.

The Ansel sofas are distinguished by an unexpected combination of materials: fitted into the sleek stainless-steel base is a structure of armrests and backrests made of iroko wood slats.

The results are striking and reveal perfect balance between the bold expressiveness of the wood and the lightness of the stainless-steel base, which is finished in an elegant array of epoxy powder-coat colors and clad in water-repellent elastic webbing.

Comfort is assured by soft generously padded seat cushions, outlined with elegant grosgrain piping that can be crafted tone-on-tone or in a contrasting shade.

Backrest support relies on bolsters. Different sized cushions are placed against them for added comfort as well as an eye-pleasing decorative effect.

The Ansel sofas are available in two seat depths – 84 and 124 cm – and in two- and three-seat versions.

In order to keep the Ansel sofas in good condition and maintain them as close as possible to their original state, use of their respective waterproof covers is strongly recommended.

277A3 277A5

277A7 277A9

277D5 277M7 277M8 277M9

Le linee rigorose del sistema di sedute Ontario trovano la loro espressione più compiuta nell'impiego di un materiale di pregio, quale il massello di iroko, scelto per realizzare l'imponente struttura.

La calda matericità del legno conferisce una forte caratterizzazione alla struttura del divano interamente realizzata con doghe in iroko di forte spessore e distanziali in metallo pressofuso verniciato a polvere.

Al rigore formale della struttura in legno si associano cuscini di seduta e schienale generosamente imbottiti.

I cuscini di schienale sono dotati del caratteristico rullo – divenuto nel tempo uno degli elementi distintivi dell'azienda – che appoggia sulla struttura in iroko, rendendo il sostegno particolarmente confortevole.

Un telaio perimetrale in acciaio collocato in posizione arretrata mantiene il divano sollevato da terra preservandolo dall'umidità.

Grazie alla doppia profondità, il sistema di sedute Ontario offre una grande versatilità sul piano compositivo.

È vivamente consigliato l'utilizzo delle apposite fodere impermeabili per mantenere i divani Ontario in buone condizioni e preservarne il più possibile lo stato originale.

The sleek lines of the Ontario seating system achieve their highest potential in luxury materials, like the solid iroko wood chosen for this impressive structure.

The warm texture and feel of the wood lend bold personality to the sofa's structure, which is made entirely of thick iroko wood slats and sleek cast metal spacers with epoxy powder-coat finish.

In delicious contrast to the formal lines of the wood structure, the generously padded seat and backrest cushions are quite enticing.

The backrest cushions come with the characteristic bolster – which, over time, has become one of the company's distinctive elements. It rests against the iroko structure for especially supportive back comfort.

A steel perimeter frame, set back slightly from the edges of the sofa, lifts it off the pavement for protection against dampness.

Thanks to its double-depth, the Ontario seating system is conducive to creative, versatile arrangement ideas.

In order to keep the Ontario sofas in good condition and maintain them as close as possible to their original state, use of their respective waterproof covers is strongly recommended.

Grandemare Outdoor

58

Antonio Citterio

Il divano Grandemare, progettato da Antonio Citterio nel 2011, migra ora in ambienti outdoor per arredare terrazze e verande all'insegna di un elegante understatement. Grandemare Outdoor è un sistema di sedute che offre tutte le funzioni ed il confort di un divano imbottito per interni, progettato in una versione completamente outdoor.

Il divano Grandemare Outdoor presenta un'aggregazione di volumi geometrici morbidi e del tutto privi di spigoli che poggiano su un pianale realizzato in laminato compatto stratificato, un materiale di ultima generazione, particolarmente idoneo alla collocazione in ambienti outdoor. In luogo del tradizionale bracciolo imbottito, è possibile realizzare la variante con un elemento interamente realizzato in legno di iroko, da utilizzarsi quale funzionale piano d'appoggio e con vano utile per riporvi degli oggetti.

Il sistema di sedute Grandemare Outdoor è caratterizzato da una modularità che gli consente di offrire un ampio ventaglio di possibilità compositive e può essere completato dagli omonimi tavolini realizzati in doghe di iroko massello e distanziali in lega metallica.

È vivamente consigliato l'utilizzo delle apposite fodere impermeabili per mantenere i divani Grandemare in buone condizioni e preservarne il più possibile lo stato originale.

Dressed for the outdoors, the Grandemare sofa, designed by Antonio Citterio in 2011, is ready to furnish patios, terraces and porches with understated elegance. The Grandemare Outdoor seating system delivers all the practicality and comfort of an indoor upholstered sofa in an entirely outdoor version.

A clustering of soft geometric shapes, all devoid of sharp corners, the Grandemare Outdoor sofa rests on a compact laminated platform, a state-of-the-art material ideally suited to outdoor settings.

In place of the traditional upholstered armrest, an element entirely made of solid iroko wood can serve as a convenient table top surface, with a useful compartment to store objects.

The Grandemare Outdoor seating system features the kind of modularity that encourages a vast array of possible arrangements and can be accessorized with its namesake coffee tables made of solid iroko slats and sleek metal alloy spacers.

In order to keep the Grandemare sofas in good condition and maintain them as close as possible to their original state, use of their respective waterproof covers is strongly recommended.

Ortigia Outdoor

Design Center

74

La famiglia Ortigia Outdoor si amplia e vede l'inserimento di un divano, caratterizzato da linee aggraziate e proporzioni compatte, che ne fanno un elemento versatile che può essere facilmente collocato in terrazze o verande di piccole dimensioni così come in spazi hospitality.

La struttura del divano Ortigia è realizzata in massello di iroko, lavorato con tecniche che rimandano alla grande tradizione ebanista e proposto nelle versioni naturale oppure laccato bianco o tinto grigio.

La seduta è imbottita mentre lo schienale è impreziosito da un sofisticato intreccio interamente realizzato a mano, proposto nelle varianti in corda di polipropilene o gomma poliuretanica, ambedue disponibili in un'elegante palette cromatica.

L'appoggio a terra è a mezzo di puntali in lega metallica pressofusa e gommini in nylon.

The Ortigia Outdoor family expands to include a sofa. Its graceful lines and compact proportions make it versatile and an easy fit for modestly-sized patios or porches, as well as in hospitality spaces.

The structure of the Ortigia sofa is made of solid iroko wood, artisan-crafted with techniques that call to mind the tradition of fine cabinetmaking. It is available in natural finish, lacquered white or stained grey.

The seat is upholstered, while the backrest is embellished with an exquisite, entirely hand-woven pattern available in polypropylene cord or polyurethane rubber, both in an elegant palette of colors.

It rests on die-cast metal alloy tips and nylon pads.

Peter Outdoor

Antonio Citterio

84

Il divano Peter Outdoor declina le linee leggere e il raffinato intreccio dell'omonima poltrona in una seduta dalle proporzioni misurate. La struttura del divano è realizzata in acciaio inossidabile austenitico 316, disponibile anche nella finitura con verniciatura a polvere epossidica nei colori bianco, verde kaki, rosso vino e brunito. La seduta e lo schienale sono impreziositi da un leggero quanto robusto intreccio realizzato in fibra di polipropilene oppure gomma poliuretanica proposto in una raffinata paletta cromatica che spazia dai toni naturali al bordeaux e al verde oliva. Il divano Peter Outdoor può essere corredata da soffici cuscini optional per schienale e seduta, con rivestimenti sfoderabili che possono essere realizzati in un'ampia gamma di tessuti outdoor.

The Peter Outdoor sofa echoes the svelte lines and elegant weaving of its namesake armchair in a discreetly proportioned seating element. The structure is made of burnished austenitic 316 stainless steel; it is also available with epoxy powder-coat finish in white, khaki green, or wine-red color. The seat and backrest are embellished with a light yet sturdy woven pattern made of polypropylene fiber or polyurethane rubber in an elegant color palette that ranges from earth tones to bordeaux and olive green. The Peter Outdoor sofa can be enhanced with soft optional backrest and seat cushions with removable upholstery that comes in a wide range of outdoor fabrics.

Atlante Daybed

Antonio Citterio

94

**CHAISELONGUES
DORMEUSES
DAYBEDS**

Il lettino Atlante è connotato da un'estetica leggera e da materiali di grande qualità, che ne garantiscono la durata nel tempo, nelle condizioni atmosferiche più diverse.

È ricco di dettagli di confezione che ne sottolineano l'elevato grado di personalizzazione la base in acciaio inox è verniciata a polvere epossidica in una serie di raffinati cromie, mentre le cinghie elastiche idrorepellenti sono proposte nei colori bianco, sabbia, grigio ed antracite a realizzare un piacevole contrasto oppure un garbato effetto ton-sur-ton.

Il soffice materassino imbottito in fibra di poliestere soffiata è rifinito da un elegante profilo in gros grain.

Il lettino è reclinabile grazie ad un funzionale meccanismo che permette di aggiustare l'inclinazione dello schienale in legno massello di iroko in diverse posizioni ed è disponibile anche nella versione con ruote posteriori in alluminio pressofuso che consentono di spostarlo agilmente.

The Atlante daybed expresses a svelte aesthetic through high-quality materials which ensure it long life even in the most disparate weather conditions.

Its many craftsmanship details underscore this daybed's impressive talent for personalization. The metal base has an epoxy powder-coat finish in a series of sophisticated shades, while the water-repellent elastic webbing comes in white, sand, grey and anthracite colors to create elegant contrasts or subtle tone-on-tone pairings.

The comfortably soft mattress is filled with blown polyester fiber and finished with elegant grosgrain piping.

A simple mechanism allows the angle of inclination of the solid iroko backrest to be easily adjusted and also comes in a version with aluminum posterior wheels to smoothly shift its location.

Hora Sexta

Antonio Citterio

108

**CHAISELONGUES
DORMEUSES
DAYBEDS**

A bordo piscina o all'ombra di un gazebo, il lettino Hora Sexta offre un'esperienza di autentico relax.

Il lettino Hora Sexta è caratterizzato da un disegno essenziale che esalta le qualità naturali del legno di iroko, un'essenza dal colore caldo e dal tocco morbido e vellutato, e da particolari costruttivi ingegnosi quali lo schienale reclinabile con intreccio in fibra di polipropilene, disponibile in un'ampia gamma di raffinate cromie.

L'appoggio a terra è a mezzo di puntali in lega metallica pressofusa e gommini in nylon.

Il lettino è disponibile anche nella versione con ruote posteriori in alluminio pressofuso che consentono di spostarlo agilmente e può essere completato da un morbido materassino imbottito rifinito da un elegante profilo in gros grain, realizzato ton-sur-ton o in contrasto per un effetto decorativo più marcato.

Poolside or in the shade of a gazebo, the Hora Sexta daybed offers a truly relaxing experience.

The minimalist design of the Hora Sexta daybed exalts the natural qualities of the iroko wood –warm-colored, with a soft, velvety texture. It also features ingenious craftsmanship details, like the reclinable woven polypropylene fiber backrest, available in a wide range of sophisticated colors.

It rests on die-cast metal alloy tips and nylon pads.

The daybed also comes in a version with cast aluminum posterior wheels that allow it to be moved quickly and easily. It can be completed with a soft, upholstered mattress finished with elegant grosgrain piping that can be crafted tone-on-tone or in a contrasting shade for a more distinct decorative vibe.

Tessa Outdoor

Antonio Citterio

122

La struttura della poltrona Tessa Outdoor è interamente realizzata in massello di iroko tornito, gli incastri eseguiti secondo la tradizione, una lavorazione che richiede una grande perizia artigianale e che restituisce appieno la poetica matericità di un materiale caldo e nobile come il legno. L'intreccio di seduta e schienale è in cordoncino di polipropilene intrecciato a mano, proposto in una raffinata palette cromatica. Soffici cuscini optional assicurati a mezzo di essenziali nastrini rendono la poltrona Tessa Outdoor ancora più accogliente.

La famiglia Tessa Outdoor comprende una poltrona con braccioli, un pouf, una panca ed un tavolino, il cui piano è disponibile in pietra nelle finiture Beola argentata, pietra del Cardoso, pietra lavica e porfido.

**ARMCHAIRS
OTTOMANS
COFFEE TABLES

CONSOLES**

The structure of the Tessa Outdoor armchair is made entirely of solid turned iroko wood. The traditional joinery requires expert craftsmanship and gently exalts the natural texture and feel of the wood. The seat and backrest are in hand-woven polypropylene cord, available in a sophisticated palette of colors. Soft optional cushions held in place by slender straps add a deeper sense of welcome to the Tessa Outdoor armchair.

The Tessa Outdoor family includes an armchair, ottoman, bench and coffee table. Table top choices range from Beola Argentata, Pietra del Cardoso, Lava and Porphyry.

Carlotta Outdoor

Antonio Citterio

136

La poltroncina Carlotta disegnata da Antonio Citterio nel 1997 è divenuta nel tempo uno dei prodotti più emblematici dello stile Flexform, viene ora riproposta in chiave outdoor.

Il rigore dell'essenziale struttura in acciaio incontra la ricercata eleganza dell'intreccio, in un connubio denso di poetica semplicità.

La struttura in acciaio inox è verniciata in numerosi colori mentre l'intreccio è disponibile in due varianti dimensionali ed è realizzata in fibra di polipropilene in una raffinata palette cromatica.

La poltroncina Carlotta Outdoor può essere abbinata all'omonimo poggiapiedi.

Designed by Antonio Citterio in 1997, the Carlotta small armchair has, over time, become one of the most emblematic examples of the Flexform style, now reinterpreted in an outdoor version.

The cool simplicity of the sleek stainless-steel base meets the sophisticated elegance of the woven upholstery in a marriage filled with poetic simplicity.

The stainless-steel structure has an epoxy powder-coat finish, available in several colors, while the woven polypropylene fiber upholstery comes in a palette of sophisticated shades.

The Carlotta Outdoor small armchair can be paired with its namesake footstool.

CONSOLES

Il disegno pulito ed essenziale del tavolo Pico Outdoor gli conferisce una notevole leggerezza sul piano visivo.

Le gambe caratterizzate da linee affusolate sono realizzate in alluminio pressofuso e vernicate a polvere epossidica in raffinate cromie, mentre il piano dagli spigoli smussati può essere prodotto nelle versioni con doghe in legno di iroko oppure in pietra nelle finiture Beola argentata, pietra del Cardoso, pietra lavica e porfido.

Il tavolo ed i tavolini Pico Outdoor sono disponibili in una pluralità di dimensioni diverse e sono connotati da una grande versatilità: si abbinano facilmente a tutte le sedie e le poltroncine della collezione outdoor, per dare vita ad ambienti esterni all'insegna di un'informale convivialità.

The clean, uncluttered design that distinguish the Pico Outdoor dining table lend it a clear sense of visual lightness.

The elegantly tapered legs are made of cast aluminum and come in an array of sophisticated epoxy powder-coat finish colors. The no-sharp-edges table top is available in versions with iroko wood slats, or in the following types of stone: Beola Argentata, Pietra del Cardoso, Lava and Porphyry.

The extremely versatile Pico Outdoor dining table and coffee tables come in an array of sizes. They can be easily paired with all of the chairs and small armchairs in the outdoor collection to lend an air of informal conviviality to any alfresco setting.

Alison Outdoor

Carlo Colombo

170

L'originale design che contraddistingue la poltrona Alison Outdoor si estende ora anche al divano, previsto nelle versioni a due e tre posti. La flessuosa struttura del divano è in alluminio estruso con verniciatura a polvere epossidica nei colori bianco, verde kaki, rosso vino, brunito ed alluminio satinato. Lo schienale è in gomma poliuretanica in una gamma cromatica che spazia dai toni naturali al bordeaux e al verde oliva, mentre i cuscini di seduta e schienale possono essere rivestiti in tutti i tessuti della collezione tessile outdoor. Grazie alla loro leggerezza, i divani Alison Outdoor possono essere movimentati con grande facilità. È vivamente consigliato l'uso delle apposite fodere per mantenere i divani Alison Outdoor in buone condizioni e preservare il più possibile il loro stato originale.

The outdoor version of the Alison armchair now extends its compelling design also to a two-seater and a three-seater. The curved structure of the Alison Outdoor sofa is in extruded aluminum with epoxy powder-coated finish in white, khaki green, wine red; or burnished or satin-finish aluminum, while the base is made of marine plywood. The backrest is in polyurethane rubber, in a color palette that ranges from earth tones to bordeaux and olive green, while the seat and backrest cushions can be upholstered in any of the fabrics from the outdoor textile collection. Thanks to their light weight, the Alison Outdoor sofas can easily be moved. In order to keep the Alison sofas in good condition and maintain them as close as possible to their original state, use of their respective waterproof covers is strongly recommended.

Echoes Outdoor

Christophe Pillet

180

La famiglia di sedute Echoes Outdoor richiama alla memoria echi di altre epoche e culture in apparente contrapposizione: mediterranea e scandinava, rustica e delicata al tempo stesso, "déjà vu" e tuttavia atemporale.

La costruzione della sedia e della poltrona Echoes Outdoor manifesta un contrasto materico deciso: la struttura è in rigoroso acciaio inox mentre seduta e schienale sono caratterizzati da un fine intreccio in cordoncino di polipropilene opaco nei colori naturale, ghiaccio, paglia ed antracite.

Per migliorare ulteriormente il confort della poltrona Echoes Outdoor, è possibile aggiungere un soffice cuscino optional.

**ARMCHAIRS
OTTOMANS
DINING CHAIRS
DINING ARMCHAIRS
BAR STOOLS**

A small family of seating elements with big personalities calls to mind echoes of other seemingly contrasting times and cultures – Mediterranean and Scandinavian, both rustic and delicate, déjà vu and yet, timeless.

Its construction displays a bold material contrast: the structure is in sleek stainless steel while the seat and backrest are made of fine woven paper or paper rush cord – complex craftsmanship reminiscent of traditional methods and still performed entirely by hand.

A soft optional cushion can be added to the armchair to ensure the utmost comfort.

DINING CHAIRS
DINING ARMCHAIRS
BAR STOOLS

Il progetto della sedia First Steps Outdoor è chiaramente riconducibile alla filosofia progettuale di Christophe Pillet, il quale dichiara: "Non sono alla ricerca dello straordinario, bensì di ciò che è bello e in grado di suscitare emozione dentro l'ordinario".

Questa ricerca appassionata dell'essenza delle cose si manifesta appieno anche nel progetto della sedia First Steps Outdoor, che nella sua poetica semplicità sembra ricondurre all'archetipo dell'oggetto-sedia.

La sinuosa struttura che sale a formare lo schienale è in acciaio inox verniciato a polvere epossidica in una gamma di raffinati colori, mentre il fitto intreccio della seduta è in cordoncino di polipropilene opaco nei colori naturale, ghiaccio, paglia ed antracite ed è interamente realizzato a mano.

Medesimo disegno e materiali per lo sgabello, la cui presenza gentile gli conferisce una notevole versatilità e gli consente di inserirsi con garbo e discrezione nei contesti più diversi.

The aesthetic of the First Steps Outdoor chair clearly reveals the design philosophy of Christophe Pillet, who explains: "I am not on a quest for the extraordinary, but rather for that which is beautiful and able to kindle emotion in the ordinary".

This impassioned exploration of the essence of things is also fully developed in the design of the First Steps chair whose lyric simplicity seems to trace back to the archetypal object-chair.

The sinuous structure that rises to form the metal backrest has a painted white or burnished finish, while the tightly woven seat material is entirely hand-made in either paper cord or paper rush cord.

The same design and materials appear in the bar stool, whose refined appearance translates to undeniable versatility, making it a tasteful and discreet fit in any setting.

Any Day Outdoor

Christophe Pillet

196

La famiglia di tavolini Any Day Outdoor presenta linee pure ed un disegno essenziale, declinati in una grande varietà di misure e finiture che ne sottolineano la grande versatilità.

Alla rigorosa struttura in acciaio inox si possono associare piani in massello di iroko naturale, tinto grigio o laccato bianco, in pietra nelle tipologie Beola argentata, pietra del Cardoso, pietra lavica e porfido.

Il concept dei tavolini Any Day Outdoor si estende anche ad un pouf la cui seduta è contraddistinta da un originale intreccio realizzato in cordonecino di polipropilene opaco nei colori naturale, ghiaccio, paglia ed antracite.

The Any Day Outdoor family of coffee tables combines pure lines and minimalist design, expressed through a selection of finishes that emphasize its outstanding versatility.

The sleek stainless steel structure can be paired with tops in solid iroko wood with natural finish, stained grey or lacquered white; or, in the following types of stone: Beola Argentata, Pietra del Cardoso, Lava and Porphyry.

The concept of the Any Day Outdoor coffee tables also extends to an ottoman whose distinctive seat is made of woven matt polypropylene cord in natural, ice, straw or anthracite color.
